

LOS ANGELES UNIFIED SCHOOL DISTRICT  
Policy Bulletin

---

**TITLE:** Credit for Concurrent Enrollment in High School and Community College

**NUMBER:** BUL-1040.1 Rev.

**ISSUER:** Merle Price, Deputy Superintendent  
Instructional Services

**DATE:** June 8, 2004

**ROUTING**

Local District Superintendents  
Local District Directors of  
Instructions  
Local District Directors of  
School Services  
Principals  
Assistant Principals, SCS  
School Counselors  
College Counselors

**POLICY:** This Bulletin provides guidelines for school personnel to advise students appropriately regarding equivalent college course work, to accurately record credit, and to properly work with the community college to arrange courses open to high school students taught on the high school campuses.

**MAJOR CHANGES:** This Bulletin replaces Bulletin No. M-123 of the same subject, dated September 14, 2001, adding information about working with the community college to arrange courses for high school student enrollment. Attachment A contains procedures for adding college courses to a student's TR01 electronic cum and paper cumulative record and recording credit. The Attachment B was revised to contain additional LACCD courses that align with LAUSD courses. Attachment C has been added to list Santa Monica College courses that align with LAUSD courses.

**GUIDELINES:** The following guidelines apply.

I. INTRODUCTION

The primary concern of the Los Angeles Unified School District is the academic preparation of its students. The California Community Colleges offer excellent educational programs designed for transfer to a four-year college program, Associate of Arts degree preparation, certificate preparation, and vocational training.

The Los Angeles Unified School District Board of Education and specific community colleges have agreed on a matrix of community college courses that meet the content standards of the high school course. These courses may meet graduation requirements, add an enriched curriculum, and offer additional options for high school students who are pursuing both a high school diploma and a smooth transition to college.

## LOS ANGELES UNIFIED SCHOOL DISTRICT Policy Bulletin

---

### II. PURPOSE

The purpose of this agreement between LAUSD and the community colleges is to expand concurrent enrollment opportunities for high school students so that senior high schools are able to:

- A. Promote the enrollment of students in graduation equivalency courses offered by the community college according to the educational needs of the students.
- B. Accept credit earned at the community college level toward meeting graduation requirements as set by LAUSD.

In addition, the community college will grant college credit for these courses to students who meet the standards set by the Board of Trustees of the community college and as allowable under the Education Code, State of California.

### III. DISTRICT POLICY

In accordance with Section 48800 of the Education Code, secondary schools will grant credit for college course work if the college level course meets the content standards of the high school course, the course is necessary to meet a graduation requirement and the high school Principal or designee grants permission for the student to earn high school credit for the course taken at the community college.

A Memorandum of Understanding signed by the designees from the community college district and LAUSD delineates the responsibilities of each institution, compliant with Section 48800 of the Education Code.

- A. The LAUSD Board of Education may determine which pupils would benefit from advanced scholastic or vocational work to provide educational enrichment opportunities for a limited number of eligible pupils.
- B. The Principal may only recommend a pupil for community college summer session if that pupil meets all the following criteria: (EC 48800 (d)).
  - 1. Demonstrates adequate preparation in the discipline to be studied.
  - 2. Exhausts all opportunities to enroll in an equivalent course at his or her school of attendance.

- C. For any particular grade level, a Principal may not recommend for community college summer session attendance more than 5 percent of the total number of pupils who completed that grade immediately prior to the time of recommendation. (EC 48800 (2))
- D. If the community college course is offered on the high school campus, it must be held beyond the school day, either before or after school or on Saturdays. It must be open to the general public and people enrolled in the course must have access to the classroom. And, there must be adequate supervision, including a way for the teacher to contact the administrator on the school site in case of an emergency.
- E. If a physical education course is offered on the high school campus, no more than 10 percent of its enrollment may be comprised of special part-time or full-time concurrently enrolled high school students.
- F. The community college district may restrict admission or enrollment of special part-time or full-time concurrently enrolled high school students during any session based on specified criteria, such as age, completion of a specified grade level, or demonstrated eligibility for instruction using assessment methods and procedures.

#### IV. PROCEDURES

Title 5 and the California Administrative Code, Section 1630, establishes the procedures listed below.

- A. Credit toward high school graduation for successful completion of courses taken at a community college may be granted to a student enrolled in a senior high school under the following conditions:
  - 1. Prior to enrollment, the student makes written application to the appropriate college office indicating that he or she is seeking high school credit.
  - 2. The course is listed on, or equivalent to, a course on the Course Articulation Agreement. (See the Attachments B or C)
  - 3. The student is responsible for obtaining approval from the high school counseling office before enrolling in college classes. The counselor will indicate whether the course will receive high school credit along with college credit or only college credit.

## LOS ANGELES UNIFIED SCHOOL DISTRICT Policy Bulletin

---

- B. It is the responsibility of the community college to offer college credit as well. Upon receipt of an official transcript from the community college showing the course title and college units, the high school equivalent course and the credits allowed will be recorded on the student's cumulative record and the Electronic Transcript program.

### V. IMPLEMENTATION

This policy of granting credit for community college courses taken by high school students concurrently enrolled in community college became effective with the class of students who were scheduled to graduate in 2002. Classes taken beginning with the fall semester of 2001 by students in the class of 2002 and beyond will be awarded credit based on the Course Articulation Agreement Matrix (Attachments B and C).

Attachment A provides directions for adding these college courses to the electronic cumulative record file (TR01) when courses must be added manually.

**AUTHORITY:** This is a Los Angeles Unified School District policy that is in alignment with the California Education Code.

**ASSISTANCE:** For assistance or further information, please contact Bud Jacobs, Director High School Programs, at 213-241-6895.

**PROCEDURES FOR ADDING COLLEGE COURSES TO THE  
ELECTRONIC CUMULATIVE RECORD AND THE PAPER CUMULATIVE RECORD**

Each high school shall establish a procedure for students to follow regarding obtaining permission to take a course at a community college and college/university to ensure consistency among school personnel and fairness to all students. The Assistant Principal Secondary Counseling Services will ensure that the procedure is communicated to all students and staff.

**CONCURRENT ENROLLMENT FORM**

Colleges have a Concurrent Enrollment Form that must be signed by the high school counselor giving permission for the student to enroll in a college course. When the counselor approves the college course for the student, note on the form:

- If the course will meet a graduation requirement, write the requirement that will be met.
- If the course is taken for enrichment only, write “enrichment course”.
- Write the number of high school credits the student will earn. (Refer to the Articulation Agreement with the college.)
- If the course will receive an augmented point, write “augmented point”.

Make three copies of the Concurrent Enrollment Form. The student receives the original to take to the college for enrollment purposes. The student receives one copy, the counselor keeps one copy for the student’s school records, the credit clerk keeps one copy to collate with the college transcript in order to enter the course correctly in the electronic cum and on the paper cumulative record.

**ELECTRONIC CUMMULATIVE RECORD**

The following procedure describes the process for adding approved college courses to the electronic cumulative record file (TR01) when courses must be added manually.

- In CL31 create a bubble number for the course “College Course” with District course number 105020.
- In CL01 create a class in a period greater than six with this bubble number.
- When a student enrolls in any college course, add this class in CL04 for that student. This will allow the course to be counted for the fall survey and will serve as a placeholder that can be changed as the semester progresses. For example, if the student drops the course without earning a fail, that course may be dropped from CL04.
- When the student completes the course, this procedure shall be followed once the college transcript has been received.
  - A. **If the college course is taken for graduation requirements**, use the six-digit district course number listed in Attachment B or C of this Bulletin. A one-semester college course is listed only once and receives the number of high school credits designated on the Articulation Agreement with the college.

June 8, 2004

Page 6 of 31

ATTACHMENT A

**B. If the college course is taken for graduation requirements and also earns an augmented point**, use correct course number from the following generic district course numbers:

106031	MATH
106336	PHYSICAL SCIENCE

- Overtyping the course title as it appears on the college transcript, abbreviating if necessary. Use the course title, not the department and course number e.g., Calculus 1 not Math 261.
- Enter the number of equivalent high school credits earned for the college course as listed on the Articulation Agreement.
- Enter the student's final mark.
- Enter the grade level of the student at the time the course was taken. If the course was taken during the summer/intersession, use the grade level for the following fall semester.
- In the date field, enter the ending date of the college semester/quarter.
- Enter the name of the college in the school column.

**C. If the college course is taken for enrichment**, use the following generic district course number.

107020	ART
107021	BUSINESS
107018	COMPUTER SCIENCE
107023	ENGLISH
107025	FOREIGN LANGUAGE
107031	MATHEMATICS
107032	MUSIC THEORY
107033	PHYSICAL EDUCATION
107036	BIOLOGICAL SCIENCE
107336	PHYSICAL SCIENCE
107037	SOCIAL SCIENCE
107038	VISUAL/PERFORMING ARTS

- These courses will be included on the UC/CSU applications (TR04) but **not** included in the LAUSD GPA (TR06).
- Overtyping the course title as it appears on the college transcript, abbreviating if necessary. Use the course title, not the department and course number, e.g., Calculus 1, not Math 261.
- Enter the number of equivalent high school credits earned for the college course as listed on the Articulation Agreement.
- Enter the student's final mark.
- Enter the grade level of the student at the time the course was taken. If the course was taken during the summer/intersession, use the grade level for the following fall semester.
- In the date field, enter the ending date of the college semester/quarter.
- Enter the name of the college in the school column.

**CONCURRENT ENROLLMENT  
LOS ANGELES COMMUNITY COLLEGE DISTRICT ARTICULATION AGREEMENT**

\*Course titles and descriptions may vary among campuses. The community college course must align with the high school course content standards.

**English:**

Enrollment in any community college English course is dependent upon the appropriate score on the placement exam or successful completion of the prerequisite English course. Once the student has taken the assessment for placement into an English course, he or she should also meet with a counselor in the matriculation office to ensure the correct course is taken.

<u>Diploma and/or Degree Credit</u>	<u>High School Credit</u>	<u>College Units</u>	<u>High School Course</u>	<u>Community College Course</u>	<u>Notes</u>

**CONCURRENT ENROLLMENT  
SANTA MONICA COLLEGE ARTICULATION AGREEMENT**

\*The community college course must align with the high school course content standards.

**English:**

Enrollment in any community college English course is dependent upon the appropriate score on the placement exam or successful completion of the prerequisite English course. Once the student has taken the assessment for placement into an English course, he or she should also meet with a counselor in the matriculation office to ensure the correct course is taken.
