

Miller Career and Transition Center

"You Buy It ... WE BUILD IT!!!"

Miller career and Transition Center is offering a one stop assembly shop for all of your basic assembly needs. From barbeques to book cases. If you're tired of wrestling with directions and hunting down the few tools you may or may not have, bring it to us. For a small donation (if you are able) our students will assemble just about anything for you.

The students in this program are learning the basics of following directions and proper hand tool usage.

Many leading retailers such as IKEA®, Target®, and Costco® sell flat pack or "Easy Self-Assembly" dressers, bookcases and other pieces furniture at exceptional prices. Unfortunately, in most cases it's anything but easy to assemble and the Flat packs come with poor instructions and multiple parts/screws. In fact many suppliers have now removed wording altogether and the instructions simply show a series of confusing diagrams. They are not confusing for us!!! Bring it in a box...and take it home assembled.

Manufactures, if you are looking for dependable, quality and AFFORDABLE assemblers call us for a quote. We can pick up and deliver your products within a 20 mile radius.
