

Making It Work Queries

1. How have your teachers' understanding of standards grown? What evidence do you have that classroom practice has changed?
2. How do you provide professional development that tailors the content to meet the needs of your diverse student population?
3. How do you accommodate teachers all along the continuum of professional learning?
4. How do you get "buy in" and how do you work with reluctant teachers?
5. How do you use the time you have for what matters?
6. How do you organize when tracks change and professional development is not aligned?
7. How do you support each other as a professional development team?
